**Message by President Ferdinand R. Marcos Jr.  
on the observance of 'earth hour' in the Philippines**

Ladies and gentlemen, we commemorate once again, earth hour. Let us highlight the crucial role of energy efficiency in addressing climate change. By embracing energy efficient practices, we can reduce our carbon footprint and create a sustainable future.

In the Philippines, our commitment to promoting energy efficiency paves the way for a cleaner, more climate-resilient nation. Amid challenges like El Niño, efficient resource management becomes absolutely important.

Let's adhere to energy efficiency directives, not only to preserve the environment, but also to foster a robust and adaptive nation for the 'New Philippines' that we envision.

Join us in the 'You Have the Power' campaign as we take steps towards energy security and sustainable systems.

Thank you, and let's make this earth hour count towards a greener future.
